- PADI Tech 50 diver.
- BSAC Mixed Gas Instructor 50m.
- BSAC Accelerated Deco Instructor.
- BSAC Open Water Instructor.

### DIVING CAREER

Started diving back in 1996 and soon got the 'bug' diving all over the globe enjoying the underwater world and experienced many wonderful sights.

In 2001 I went down the 'pro' route from Dive Master to my current level Staff Instructor passing on the knowledge I have gained to new and experienced drivers.

I have a love/passion for all kinds of diving from the reefs/wreck of the Indian ocean to the wrecks of Scapa Flow, playing with seals in the North Sea.

In 2012 I went down tech route, not the deep dark and dangerous that it's proclaimed to be its more about extending my bottom time to see more of what I love all be it, it can be a little deeper. In 2021 I did a cross over course with BSAC to be able to teach their entry level courses in 2022 I became a Mixed gas (Tri Mix) instructor to 50 meters.

Who know what is next!
