

DIVE QUALIFICATIONS

- PADI DIVEMASTER
- EMERGENCY FIRST RESPONSE INSTRUCTOR

After a long-standing wish to venture into the underwater world, qualifying for my PADI Open Water certification was one of the best things I have ever done.

You can find me exploring in-land dive sites in the UK, joining sea life off the shores of Tenerife or exploring wrecks wherever they settle.

As a Divemaster, I am delighted to be able to support others to join the wonderful world of diving. There is nothing better than learning new skills in a fun and friendly environment. The characters that we come across, both human and marine, make it a very special activity and one not to be missed.

MANDY MATTHEWS DIVEMASTER
