After a few years 'holding the towel' for my diving husband I took my first plunge into the world of diving while on holiday in Mexico. I was hooked instantly with a passion.

I came back to the UK, got my PADI open water cert and that was it, off to dive with Bull Sharks, explore wrecks and discover coral reefs.

Diving in wonderful locations both abroad and the UK has been amazing but the friendships I've made are equally amazing. The diving community has been

both welcoming and supportive, making lifelong friendships around the world.

As an Instructor I have the privilege to watch students start their diving journey's and fall in love with the world underwater, just like I have.

My favourite place to dive is Malta with the Blue Hole, Comino Caves and countless wrecks to explore.
